

5.0 LIST OF PREPARERS AND CONTRIBUTORS

The persons listed in this table contributed to the preparation of this draft document through planning, research, data collection, writing, editing, and reviewing this draft environmental impact statement as indicated. The U.S. Army Corps of Engineers Alaska District also acknowledges the many unnamed persons who contributed to the preparation of this draft environmental impact statement. Persons other than those listed contributed to our understanding of local traditional knowledge and customs. Others assisted with the physical labor and technical advice necessary to make the preparation of this environmental impact statement a success.

Austin Ahmasuk. Mr. Ahmasuk is an Iñupiaq elder and subsistence hunter from Nome, Alaska. He is the director of the Alaska Eskimo Walrus Commission. Mr. Ahmasuk contributed to the traditional knowledge on Pacific walrus in this draft environmental impact statement.

Russell Adams Sr.. Mr. Adams is an Iñupiaq elder and subsistence hunter from Kivalina, Alaska. Mr. Adams was employed by Cominco Alaska to protect biologists collecting survey data on the shorefast ice at Portsited from polar bears. Mr. Adams conducted many of the marine mammal surveys at Portsited and contributed to the traditional knowledge on the biology of marine and terrestrial mammals, and waterfowl used to prepare this environmental impact statement.

Willard Adams Sr. Mr. Adams is an Iñupiaq elder and subsistence hunter from Kivalina, Alaska. Mr. Adams was employed by Cominco Alaska to assist biologists collecting survey data on the shorefast ice, and to assist with surveying marine mammals at Portsited. Mr. Adams trained the Corps biologists in species identification and personally conducted many of the marine mammal surveys at Portsited. He also made significant contributions to the traditional knowledge on the biology of marine and terrestrial mammals, and waterfowl used to prepare this environmental impact statement.

Larry D. Bartlett. Mr. Bartlett has Master of Science degree in Zoology and has worked as a biologist in Alaska for 33 years, including 6 years with the Corps of Engineers Alaska District. Mr. Bartlett contributed to field research and the existing environment and consequences chapters of this draft environmental impact statement.

Susanna B. Blackwell. Dr. Blackwell has a Doctor of Philosophy degree in biology and is employed as a Senior Scientist by the consulting firm, Greeneridge Sciences, Inc. Dr. Blackwell supervised the collection of noise data at Portsited. She analyzed the noise data and was the lead author for the report on noise at Portsited that was used to write this draft environmental impact statement.

Ken Boire. Mr. Boire has a Master of Public Administration degree and is a graduate of the U.S. Army Corps of Engineers Executive Development Program. He is president of the consulting firm, Consulting Economics, Inc. Mr. Boire conducted research for the economic analysis and wrote the economics report. He reviewed the sections of the environmental impact statement that discuss Portsite economics from the economic analysis prepared by Consulting Economics, Inc.

Erik Carter. Mr. Carter is an Iñupiaq from Kivalina, Alaska. Mr. Carter was employed by Cominco Alaska to assist biologists collecting survey data on the shorefast ice, and to assist with surveying marine mammals at Portsite.

James Fuhrer. Mr. Fuhrer has 48 years of experience in the drafting profession, of which 19 years are with the Corps of Engineers, Alaska District. Mr. Fuhrer contributed his expertise in computer-assisted drafting (CAD) to calculate the area dimensions and quantity values used to describe the channel and disposal areas in this draft environmental impact statement.

Lee Ann Gardner. Ms. Gardner has a Master of Science degree in fisheries with a minor in statistics and is president of the consulting firm, RWJ Consulting. Ms. Gardner designed, mobilized, assisted with the collection of field data, analyzed field data, and wrote reports used to develop the existing environment sections on marine mammal, invertebrates, and habitats at the Portsite.

Richard Geiger. Mr. Geiger has a Bachelor of Arts degree in Economics and 14 years experience in economics, 13 of which are with the Corps of Engineers, Alaska District. Mr. Geiger coordinated the economic analysis that provided the economic information in this draft environmental impact statement.

Dee Ginter. Ms. Ginter has a Bachelor of Science degree in civil engineering and 12 years experience in the Hydrology and the Environmental Resources sections at the Corps of Engineers Alaska District. Ms. Ginter provided the engineering detail necessary to produce this draft environmental impact statement.

Willie Goodwin. Mr. Goodwin is an Iñupiaq elder and subsistence hunter from Kotzebue, Alaska. Mr. Goodwin serves on the Alaska Beluga Whale Committee and is a consultant to the Nation Parks Service in Kotzebue. Mr. Goodwin contributed to the traditional knowledge on marine mammals and other marine resources, and provided literature used to prepare Chapter 3.0 of this draft environmental impact statement.

Margan Grover. Ms. Grover has a Master of Arts degree in Anthropology. Ms. Grover has 10 years experience in anthropology/archeology and 5 years experience with the Corps of Engineers Alaska District. Ms. Grover contributed to the existing environment and consequences chapters of this draft environmental impact statement.

Chris Hoffman. Mr. Hoffman has a Bachelor of Science degree in Biology, and is currently a Master of Science candidate in Biology at the University of Alaska Anchorage. Mr. Hoffman has 5 years experience as a biologist with the Corps of Engineers Alaska District. Mr. Hoffman contributed to field research and the existing environment and consequences chapters of this draft environmental impact statement.

Stephen Jewett. Dr. Jewett has a Doctor of Philosophy degree in fisheries and is a Research Professor with the Marine Science Institute, University of Alaska Fairbanks. Dr. Jewett assisted RWJ Consulting with the design of the data survey, collection, analysis, handling methodologies, and reporting for field surveys used to develop the existing environment sections on marine mammal, invertebrates, and habitats at the Portsite. Dr. Jewett also assisted with marine mammal and invertebrate data collection at the Portsite.

Jennifer Karsner. Ms. Karsner has a Master's of Science degree in Resource Conservation and is employed as an Environmental Scientist by the consulting firm North Wind, Inc. Ms. Karsner assisted with the development and organization of graphics in Chapter 3.0 of this draft environmental impact statement.

Oran Knox. Mr. Knox is an Iñupiaq elder, whaling crew captain, and subsistence hunter from Kivalina, Alaska. Mr. Knox provided to the local traditional knowledge on bowhead and gray whales used to prepare this draft environmental impact statement.

Guy McConnell. Mr. McConnell has Bachelor of Science and Master of Science degrees in zoology. He has worked in environmental impact analysis for 33 years on a wide range of projects. He lived and worked in Alaska for more than 27 years and has worked in the Alaska District, Army Corps of Engineers as a general biologist for 26 years. Mr. McConnell was the team leader during the writing of this draft environmental impact statement and contributed to all chapters. He also is responsible for conclusions and recommendations in the environmental impact statement.

Thomas Napageak. The late Mr. Napageak was an Iñupiaq elder, whaling crew captain, and subsistence hunter from Nuiqsut, Alaska, and was chairman of the Alaska Eskimo Whaling Commission. Mr. Napageak provided to the traditional knowledge on the biology of bowhead whales used to prepare this draft environmental impact statement. Mr. Napageak passed away on 6 May 2005.

Becky Norton. Ms. Norton is an Iñupiaq from Kivalina, Alaska. Ms. Norton was employed by Cominco Alaska to assist biologists with surveying marine mammals at Portsite.

John Schaeffer Jr. Mr. Schaeffer is an Iñupiaq and subsistence hunter from Kotzebue, Alaska. Mr. Schaeffer Jr. was involved with the Bering Sea Fishermen's Association test fisheries for king crab in the Portsite area. Mr. Schaeffer Jr. contributed to the

traditional knowledge on the biology of king crab used to prepare this draft environmental impact statement.

Roswell Schaeffer. Mr. Schaeffer is an Iñupiaq elder and subsistence hunter from Kotzebue, Alaska. Mr. Schaeffer is chairman of the Alaska Beluga Whale Committee and the Mayor of the Northwest Arctic Borough. Mr. Schaeffer contributed to the traditional knowledge on the biology of beluga whales used to prepare this draft environmental impact statement.

Robert Suydam. Mr. Suydam is a biologist employed by the North Slope Borough, Alaska. He is a noted research scientist on beluga and bowhead whales, and a member of the Alaska Beluga Whale Committee. Mr. Suydam contributed to the traditional knowledge on the behavior of beluga whales used to prepare this draft environmental impact statement.

Eugene Toolie. Mr. Toolie is a Siberian Yupik elder and subsistence hunter from Savoonga, Saint Lawrence Island, Alaska. Mr. Toolie contributed to the traditional knowledge of Pacific walrus and polar bear used to draft this environmental impact statement.

Bret Walters. Mr. Walters has a Bachelor of Science degree in Physical Science and has worked in Alaska for 13 years including 12 years with the Corps of Engineers. Mr. Walters assisted with the development and organization of Chapter 3.0 Existing Environment, and Chapter 4.0, Environmental Consequences for this draft environmental impact statement and the Section 103 Appendix.

Diane Walters. Ms. Walters has a Bachelor of Arts degree in communications and has worked in the field 27 years including 18 years as a writer/editor with the Corps of Engineers Alaska District. Ms. Walters edited and organized the chapters and appendixes of this draft environmental impact statement.
